

AQURADO®

Modular Storage System

AQURADO®

Say Goodbye to Drawer Chaos

AQURADO® brings organization and efficiency to any drawer with a flexible, customizable storage solution designed to fit your exact needs. The modular system can be individually configured to accommodate a wide range of drawer sizes and layouts. The storage modules are manufactured from durable polystyrene (PS), while the base pad is made from ABS.

Featuring a practical 24 mm grid, the base pad can be easily trimmed to the required dimensions, providing a precise fit for virtually any drawer. A broad selection of modules securely attaches to the base, making it ideal for organizing calipers, socket sets, drill bits, laboratory equipment, stationery, tools, and countless other instruments and accessories.

The result is a clean, organized workspace where everything is easy to find, readily accessible, and better protected. By reducing clutter and improving organization, AQURADO® helps increase productivity in workshops, laboratories, offices, and any environment where small parts, tools, and equipment need to be stored efficiently.

Designed with practicality in mind, AQURADO® also offers excellent stackable options and space-saving storage, making it easy to transport, store, and manage—even in large quantities.

AQURADO® – the system for organized and effective use of your drawers. The modular design allows for endless possible applications.

Office

Industry

Tools at a glance

In the workshop and in production, every tool needs to be close at hand. AQURADO® ensures noticeably more efficient workflows. Here's what fits:

- Tools
- Measuring equipment
- Twist drills
- Socket sets
- Collets
- Accessories
- And much more

For tools in particular, we recommend AQURADO® Special.

PERFECTLY ORGANIZED
AQURADO® creates a clear structure in the tool cabinet and supports clean, professional workplace organization—from individual measuring tools to complete tool sets.

Medical

Structure
for the lab.

In medical and laboratory environments, well-arranged drawers and a clear system of organization are essential. With AQRADO®, you can effortlessly achieve a professional organizational structure in the lab or medical practice. Here's what fits:

- Instruments
- Measuring devices
- Pipettes
- Dental mirrors
- Remedies
- And much more

For medical applications, AQRADO® is also available in gray.

NEATLY ORGANIZED
Whether at a lab workstation, in a medical practice drawer, or in a medical work area: with AQRADO®, instruments, pipettes, measuring devices, and accessories have their designated place. Everything remains neatly separated, clearly visible, and quickly within reach—for greater calm, structure, and efficiency in everyday work.

DIY

Organization for workshop and home

Anyone who likes to tackle projects themselves knows the problem: The exact part you need suddenly seems impossible to find. With AQURADO®, tool chaos becomes organized storage. Here's what fits:

- Screwdrivers
- Bits
- Drill bits
- Socket sets
- Hex keys
- Screws
- Wall plugs
- Nuts
- Washers
- And much more

PROJECTS WITHOUT THE HASSLE
AQURADO® saves time otherwise spent searching, keeps tools and small parts organized, and brings structure to every DIY project – from the smallest screw to your favorite tool.

Office

Simply better organized

From the classic "junk drawer" into a tidy workspace. AQRADO® creates clear organization in drawers, mobile pedestals, and work areas. Here's what fits:

- Pens

- Scissors

- Markers

- Charging cables
- Sticky notes

- Small parts

- Office supplies

- And much more

SMALL ITEMS, SMARTLY STORED
AQRADO® makes organization visible in everyday office work. From writing utensils and sticky notes to small office supplies, everything can be clearly structured – for better visibility in the drawer and less time spent searching at the workstation.

**Configure your
AQURADO®
solution now.**

Your drawer. Your system.

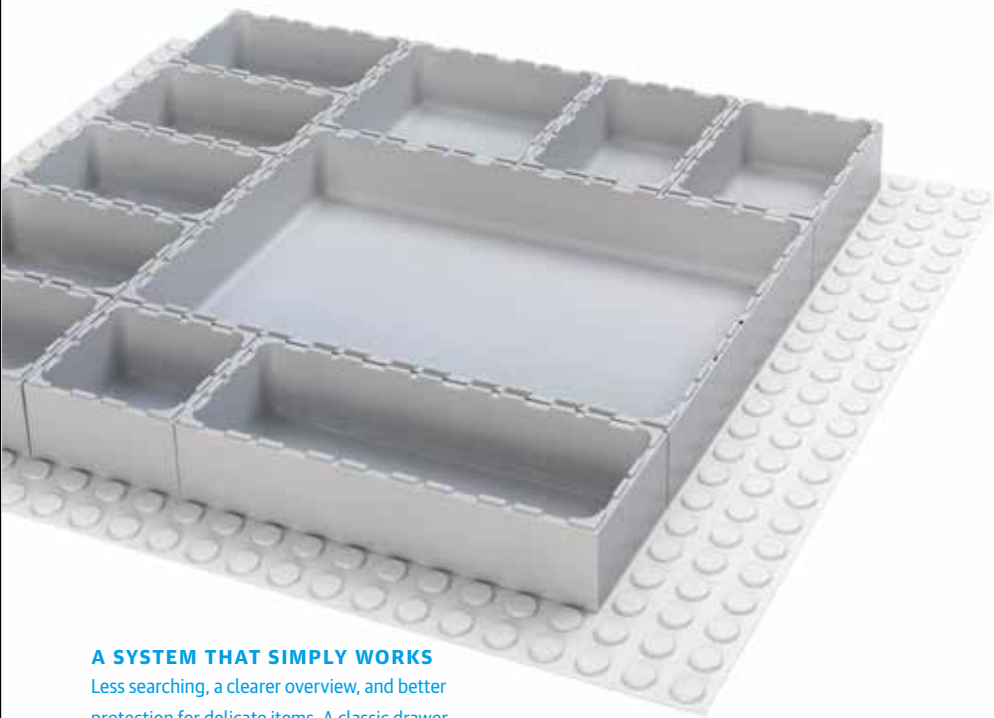

AQURADO®

Quick to install. Organized your way.

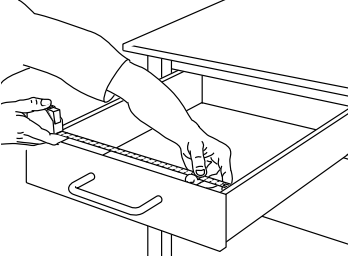

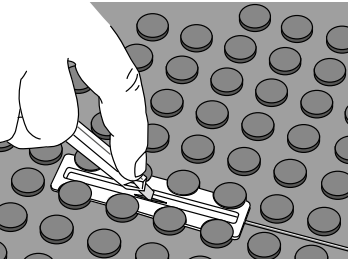

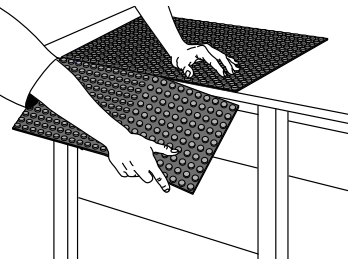

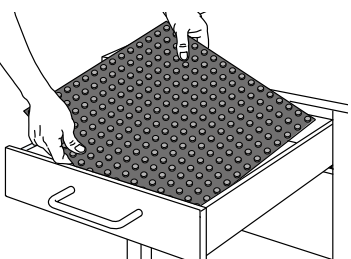

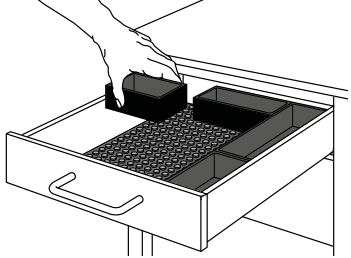

With AQURADO®, every drawer becomes a clearly structured organization system. Everything has its designated place and is right at hand exactly when it is needed.

The principle is simple: a base pad with a 24 mm grid is cut to fit the drawer. The various modules can then be freely positioned on the pad and rearranged again and again. This creates a solution that flexibly adapts to the workstation, application, and contents.

AQURADO® is available in black and gray. To cover as many application areas as possible, the system is available with different module variants as well as in practical sets. With extras such as a cutting aid, utility knife, or adhesive pads, drawers can be equipped with base pads and modules in no time.

A SYSTEM THAT SIMPLY WORKS
Less searching, a clearer overview, and better protection for delicate items. A classic drawer is transformed into a well-designed organization system — neat, practical, and customizable.

- 1 MEASURE THE DRAWER**

- 2 SCORE THE BASE USING A CUTTING GUIDE/AID AND A MULTI-PURPOSE KNIFE**

- 3 BREAK OFF THE BASE**

- 4 SECURE THE BASE WITH ADHESIVE PADS**

- 5 POSITION THE MODULES**

AQURADO Spezial

Compared with custom-cut foam inserts, Aqurado offers significantly greater flexibility. When tools are replaced or added later, screwdrivers from different manufacturers can also be accommodated with ease.

The special modules are compatible with almost all tools designed for this purpose. However, variations in size and shape may occur depending on the tool.
