Logistic SYSTEM

Optimise and standardise your working process for tool preparation! With our LogisticSystem, you can pack tools of different lengths and diameters neatly, securely and cleanly in one box.

Our LogisticSystem offers the greatest possible flexibility and security, improves your service and increases your performance capability. This will also help your company to save money and resources.

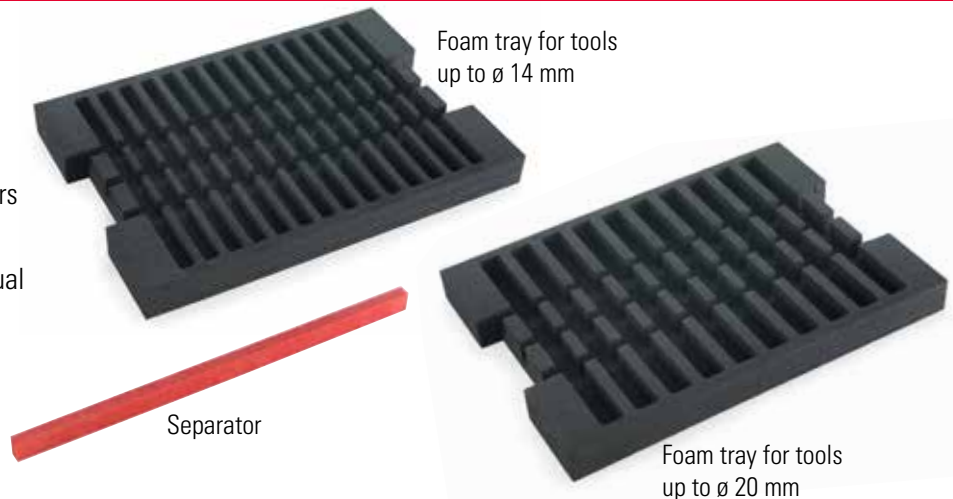

Your tools can either be stored in the versatile, high-strength foam trays with high packing density or you can use it in combination with our SystemBoard that can be placed directly into an immersion bath with the tools.

The separators can be individually shortened to suit your needs!

Foam trays

- high-strength and stable with good durability
- can be used flexibly with different tool diameters
- removable separators for different tool lengths
- recessed grips make the removal of the individual foam trays easy
- high packing density reduces logistical costs
- lower risk of injury due to flat-lying tools

One box – countless possibilities!

Boxes

- very stable and stackable
- closes with a „click“
- standardised – standardised system
- can be combined with a trolley

Box 120 incl. foam cover

Box 175 incl. foam cover

Box 235 incl. foam cover

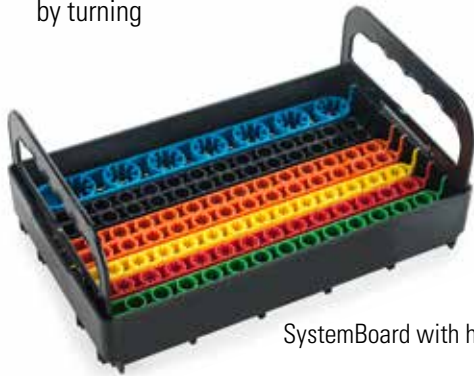

SystemBoard

- ideally suited for internal transportation
- tools can be placed in the immersion bath with the SystemBoard
- ideal for sorting, organising and storing tools
- height of inserts can be adjusted simply by turning
